Mike Spencer of Life Training Institute will be our speaker.

Addressing abortion from the pulpit can be a burdensome task. However, speaking up for innocent children and guilty adults are not competing interests. When approached biblically, with clarity and compassion, the pastor finds himself in the enviable position of being able to save lives while at the same time pointing those who have been hurt by abortion to the One who died to forgive them. Hear from Pastor Mike Spencer, of Life Training Institute as he further equips you to turn this pastoral burden into a gospel opportunity.
